

# MILESTONE MANAGER

*Take control of project timelines with proper planning and execution to every milestone and task. Imagine the results.*

## **The Challenge:**

**These days organizations strive to maximize resources and simply do more with less.**

Every leader has done everything within their control to concentrate on each project's critical path, but resources are continually being restricted. What if there was a way to achieve maximum efficiencies and reduce costs through proper planning, visibility, and control into project milestones and processes?

## **The Solution:**

**Meet Milestone Manager.**

Intesource Milestone Manager aids in the efficient management of projects, giving you accessibility to proper planning over your entire project, from beginning to end. With reason and method you can prioritize objectively and optimize time and resources throughout all milestones, tasks, and phases. Although Intesource Milestone Manager is designed to seamlessly integrate with your e-sourcing program, its value extends beyond the procurement department.

## **The Features:**

**Individuals and teams throughout the entire organization can implement Milestone Manager and benefit from:**

- At-a-glance view to key milestones and projects
- Simplified scheduling and task tracking
- Effective planning and assessment of progress
- Clear view into resources, deadlines, and status updates
- Control over forecasted vs. actual budget and timelines
- Quick identification and resolution of potential issues and unassigned tasks
- Flexible project creation, task assignments, and deadlines

Intesource Milestone Manager features additional tools such as Gantt charts, summaries, reporting, dashboards, and scorecards to let you manage all of your project activities. Integrated within the Intesource suite of tools or used as a standalone solution, Intesource Milestone Manager will actively enhance productivity, project success, and decision making - resulting in not only time and cost savings but maximized ROI.
