

# eSUITE SOURCING MANAGER

Maximize your resources with tools that take your entire organization to the next level of spend.

## The Challenge:

Organizations today are constantly in search of ways to cut and control operating costs in order to maximize ROI, but often lack the visibility and resources into key areas of opportunity.

How can I possibly gain insight into all areas of spend, identify savings opportunities, and manage risk effectively, time and time again?

## The Solution:

Intesource eSuite Sourcing Manager assists in the analysis and management of spend for the purpose of saving money, controlling costs, and ultimately in driving bottom line improvement.

According to Aberdeen Group, a leading research provider, enterprises have achieved 5% to 20% cost savings for each new dollar of spend brought under management. Intesource offers critical insight into identifying savings opportunities and key strategies for sourcing, budgeting, and planning with fully configurable and customizable at-a-glance access to the overall e-sourcing program and beyond.

## The Features:

The Intesource suite of Sourcing Management tools includes:

**Dashboards and Scorecards** - View your complete sourcing program and key sourcing initiatives at-a-glance from your desktop with:

- Automated alerts driven by customizable scorecards that are tailored to your processes and metrics
- A single-view to all pending, current, and future e-sourcing events with embedded event details
- A single resource for proposing and approving corporate initiatives
- A communications workflow module that can be used to facilitate announcements and communications across the entire organization

*The amount of detail level data is amazing. We now have insights into the business we never had before. Our standard processes now include the Intesource Sourcing Management tools."*

*Supply Chain Planner  
"Pioneer of the one stop shopping experience"*

*Major North American Retailer*

Customizable Scorecards

**Milestone Manager** - Intesource Milestone Manager aids in the effective oversight of projects from beginning to end. With reason and method you can prioritize objectively and optimize time and resources throughout all milestones, tasks, and phases. Although Intesource Milestone Manager is designed to seamlessly integrate with your e-sourcing program, its value extends beyond the procurement department.

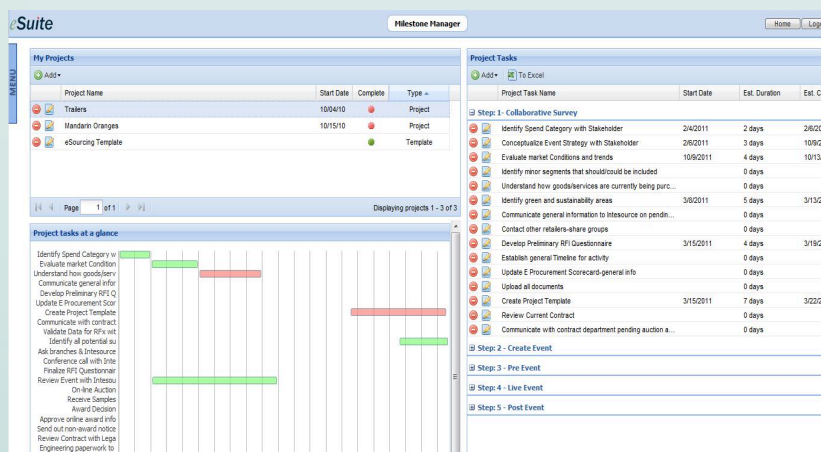

Implement Milestone Manager and benefit from:

- At-a-glance view to key milestones and projects
- Simplified scheduling and task tracking
- Effective planning and assessment of progress
- Insight into resources, deadlines, and status updates
- Control over forecasted vs. actual budget and time lines
- Quick identification and resolution of potential issues and unassigned tasks
- Flexible project creation, task assignments, and deadlines
- Status updates through customizable alerts and dashboards

It is simpler than ever to collaborate and stay connected with individuals, departmental teams, or the entire organization. Intesource Milestone Manager provides the visibility and control to improve project planning and forecasting and deliver reliable project success.

## With eSuite Sourcing Manager:

- Increase savings from sourcing projects
- Identify and reduce maverick spend
- Recognize opportunities for aggregation and economies of scale
- Enhance process efficiencies
- Discover previously untapped savings opportunities
- Proactively monitor supplier risk elements
- Increase vendor compliance

Milestone Manager

Intesource sourcing management solutions can help an enterprise uncover savings and performance opportunities within the sourcing program – leading to improved bottom line profitability. Through the use of our proven technology, automated tools, and expert customer support services, spend management can become a regular part of your organization's ongoing fiscal maintenance.
